DESCRIPTION

DOGAMIN is a range of decorative natural marble coatings.

- ☑ Suitable on exterior surfaces such as concrete, brick, eternit and with the appropriate primer can be used on the exterior on thermal insulation systems for buildings
- ☑ High water vapour permeability, allowing the building to breathe
- ☑ Alkali resistant
- ☑ Available in two grain sizes; Fine (1mm) and coarse (3mm)

SURFACE PREPARATION

Surfaces must be thoroughly cleaned and free of all loose dirt, dust, grease, loose or flaking paint, and loose surface plaster. Defects and cracks should be repaired with Sandeco Acrylic Putty. Prime new mineral and old painted surfaces with Sandeco Uniprimer.

APPLICATION METHOD

Stir well before use. Firstly, product should be applied evenly to the surface. After 20 minutes, distribute evenly across the surface using a stainless steel trowel

Work areas should be taped in order to avoid 'dry edging'. Lightly dampen very hot surfaces to cool the down before applying the product. Ensure that the air and surface temperatures are above 5°C during the application and 24 hours following the application.
